Emily is an accounting professional with more than nine years of experience in full-cycle accounting, financial reporting, and process improvement across the technology, travel and tourism, and manufacturing industries. She brings a detail-oriented, solutions-focused approach to helping organizations strengthen financial operations, improve reporting accuracy, and build efficient accounting processes that support business growth.

Her experience spans month-end close, account reconciliations, audit support, and internal controls. Emily works collaboratively with finance teams to streamline workflows, resolve complex accounting challenges, and implement practical improvements that enhance accuracy, consistency, and operational efficiency.

Known for her analytical thinking and commitment to continuous improvement, Emily combines technical accounting expertise with a strong understanding of day-to-day financial operations. She focuses on delivering reliable financial information, strengthening processes, and providing the insights organizations need to make informed decisions and support long-term success.

AREAS OF EXPERTISE

Month-End Close
Manages and improves month-end close processes to ensure timely, accurate financial reporting while identifying opportunities to streamline workflows and increase efficiency.

Account Reconciliations
Performs detailed account reconciliations to maintain financial accuracy, identify discrepancies, and strengthen the integrity of financial records.

Audit Support
Supports internal and external audits through thorough documentation, financial analysis, and coordination with stakeholders to facilitate efficient audit processes and maintain compliance.
