<https://www.linkedin.com/in/mikekasner>

Mike has served many different organizations as CFO during his 30-year career. The diversity of this experience enables him to function as a high-level business partner with CEO's, management peers, finance and operational teams, and Boards. He's had a leadership role in four acquisitions, three divestiture/sale transactions, three recapitalization transactions and multiple bank restructurings. He's also played leadership roles in strategic planning processes, change management, business process and system improvements and core financial competencies such as financial modeling and cash flow management.
