Peter Van Horn is an accomplished accounting and finance leader with a proven track record of delivering measurable impact across diverse industries, including food and beverage, real estate, and manufacturing sectors. At Growth Operators, he partners with clients to transform complex financial data into actionable insights and visualizations that fuel strategic decision-making and business growth.

Peter's expertise spans process improvement, controllership, tailored financial messaging, and reporting and dashboards. He implements strategic process enhancements that improve accuracy and automation, streamlines month-end closes for greater timeliness and reliability, and designs performance dashboards that make critical KPIs accessible to leaders at all levels of financial literacy.

Known for his hands-on approach, strong analytical skills, and ability to convey information with clarity, Peter is highly skilled at problem-solving and driving financial management initiatives that align with organizational goals. His data-driven mindset and operational experience ensure clients receive practical, forward-looking solutions that create long-term value.
