McKel is a finance professional with experience spanning public accounting, private credit, transaction advisory, and financial operations. As a Director in the Finance Practice at Growth Operators, she partners with clients to strengthen financial operations, improve processes, and provides the insights needed to support strategic business decisions.

Her experience includes financial reporting, business analysis, transaction advisory, and finance transformation initiatives across growth-oriented organizations. McKel is known for her collaborative approach and ability to quickly understand complex business challenges, helping leadership teams improve financial visibility, streamline operations, and build scalable finance functions.

Passionate about continuous improvement, McKel works closely with clients to enhance financial processes, support mergers and acquisitions, and develop practical solutions that create long-term value. She combines strong analytical skills with a business-minded perspective to help organizations establish financial foundations that support sustainable growth.

AREAS OF EXPERTISE

Financial Operations & Process Improvement

Strengthens finance operations by improving processes, enhancing controls, and creating efficiencies that support long-term organizational success.

M&A Integration & Transaction Advisory

Supports transaction advisory engagements and post-acquisition integration efforts that help organizations navigate change and capture value.

Financial Reporting & Performance Analysis

Delivers meaningful financial reporting and performance insights that enable leaders to make informed business decisions.

Finance Transformation for Growth-Oriented Businesses

Partners with organizations to modernize finance functions, improve scalability, and build the operational infrastructure needed to support growth.
