Maude Diggs is a finance professional with experience across finance and accounting operations, investment management, financial reporting, and process improvement. As a Finance Associate at Growth Operators, she supports clients by strengthening financial processes, improving reporting, and providing the analysis needed to support informed business decisions.

Her background includes working with nonprofit, foundation, and corporate organizations, giving her experience across a variety of financial environments and operating models. Maude has supported investment operations, audit coordination, financial reporting, and process improvement initiatives, bringing a thoughtful and detail-oriented approach to each engagement.

Known for her collaborative approach and ability to work through complex challenges, Maude helps clients identify opportunities to improve workflows, create efficiencies, and strengthen day-to-day financial operations. She combines analytical thinking with a focus on practical solutions that help organizations build more effective and sustainable finance functions.
